

For the past 25 years the choice has been pretty simple if you wanted the strongest, safest, and most dependable rigging sheave in the field, and that's a Wireline "G2" Rigging Sheave.

By combining high-strength stainless steel and aluminum components, with weight saving composite nylon materials, our "G2" Rigging Sheaves are built for both strength and comfort. Not only are the "G2" sheaves 30% lighter than our competition, but with a built-in handle, side loading gate, shroud system that keeps the line from "jumping", and several clevis options to choose from you can see why the "G2" sheave is the choice of operators worldwide.

Our "G2" Rigging Sheave comes in wheel sizes of ranging from 17", 22", and 26", and all are designed with several connecting points to use with our patented Handguard-Alignment Guide, Floor Stand, Rig-Up Yoke, and Secondary Retention Device. All "G2" Sheaves come fully certified with a 4:1 safety factor and one-year manufacturers guarantee.
